

CENTURION
MINERALS LTD

TSX-V: CTN

A Canadian-based company
focused on Acquisition,
Exploration and Development of
gold projects in the Americas

GOLD | NOVEMBER 2025

Forward-looking Statement

This presentation contains forward looking statements concerning future operations of Centurion Minerals Ltd. (the “Company”). All forward-looking statements concerning the Company’s future plans and operations, including management’s assessment of the Company’s project expectations or beliefs may be subject to certain assumptions, risks and uncertainties beyond the Company’s control. Investors are cautioned that any such statements are not guarantees of future performance and that actual performance and exploration and financial results may differ materially from any estimates or projections. Such statements include, among others: possible variations in mineralization, grade or recovery rates; actual results of current exploration activities; actual results of reclamation activities; conclusions of future economic evaluations; changes in project parameters as plans continue to be refined; failure of equipment or processes to operate as anticipated; accidents and other risks of the mining industry; delays and other risks related to construction activities and operations; timing and receipt of regulatory approvals of operations; the ability of the Company and other relevant parties to satisfy regulatory requirements; the availability of financing for proposed transactions, programs and working capital requirements on reasonable terms; the ability of third party service providers to deliver services on reasonable terms and in a timely manner; market conditions and general business, economic, competitive, political and social conditions. It is important to note that the information provided in this presentation is preliminary in nature. There is no certainty that a potential mine will be realized.

Technical content has been reviewed and approved by Mike Kilbourne, P.Geo, who is a Qualified Person as defined by National Instrument 43-101, Standards of Disclosure for Mineral Projects.

Northwestern Ontario

Precious Metals Focus

Northwestern Ontario is home to several world class mineral districts with major deposits and mines including gold and silver, as well as a diverse portfolio of metals such as nickel, copper, zinc, platinum and palladium, cobalt and iron.

Located in the central north Abitibi greenstone belt, the gold district of Harricana-Turgeon is recognized as a high-grade mining camp.

The Casa Berardi West Project strategically located in a historical and current mining district and has nearby infrastructure and road access.

CLOSEOLOGY STRATEGY

AMEX Exploration's (Perron) property which currently contains 1.6 Moz Measured & Indicated Resources at 6.14 g/t Au (Amex NR-July 7-2025)); located 12 kms from the Casa Berardi West Project.

Normetal Mines' historical production of 10 Mt @ 2.2% Cu, 5.4% Zn, 0.5g/t Au, and 44.5 g/t Ag located nearby

Agnico Eagle's Detour Lake Mine, located north of the Project, hosting a 15m ounce reserve, with a ~22 year mine life, and average gold production estimated at 659,000 ounces per year.

Hecla Mining's Casa Berardi Mine located 20 km NE with 3 million ounces ("Moz") Au in past production and 4 Moz Au in reserves and resources

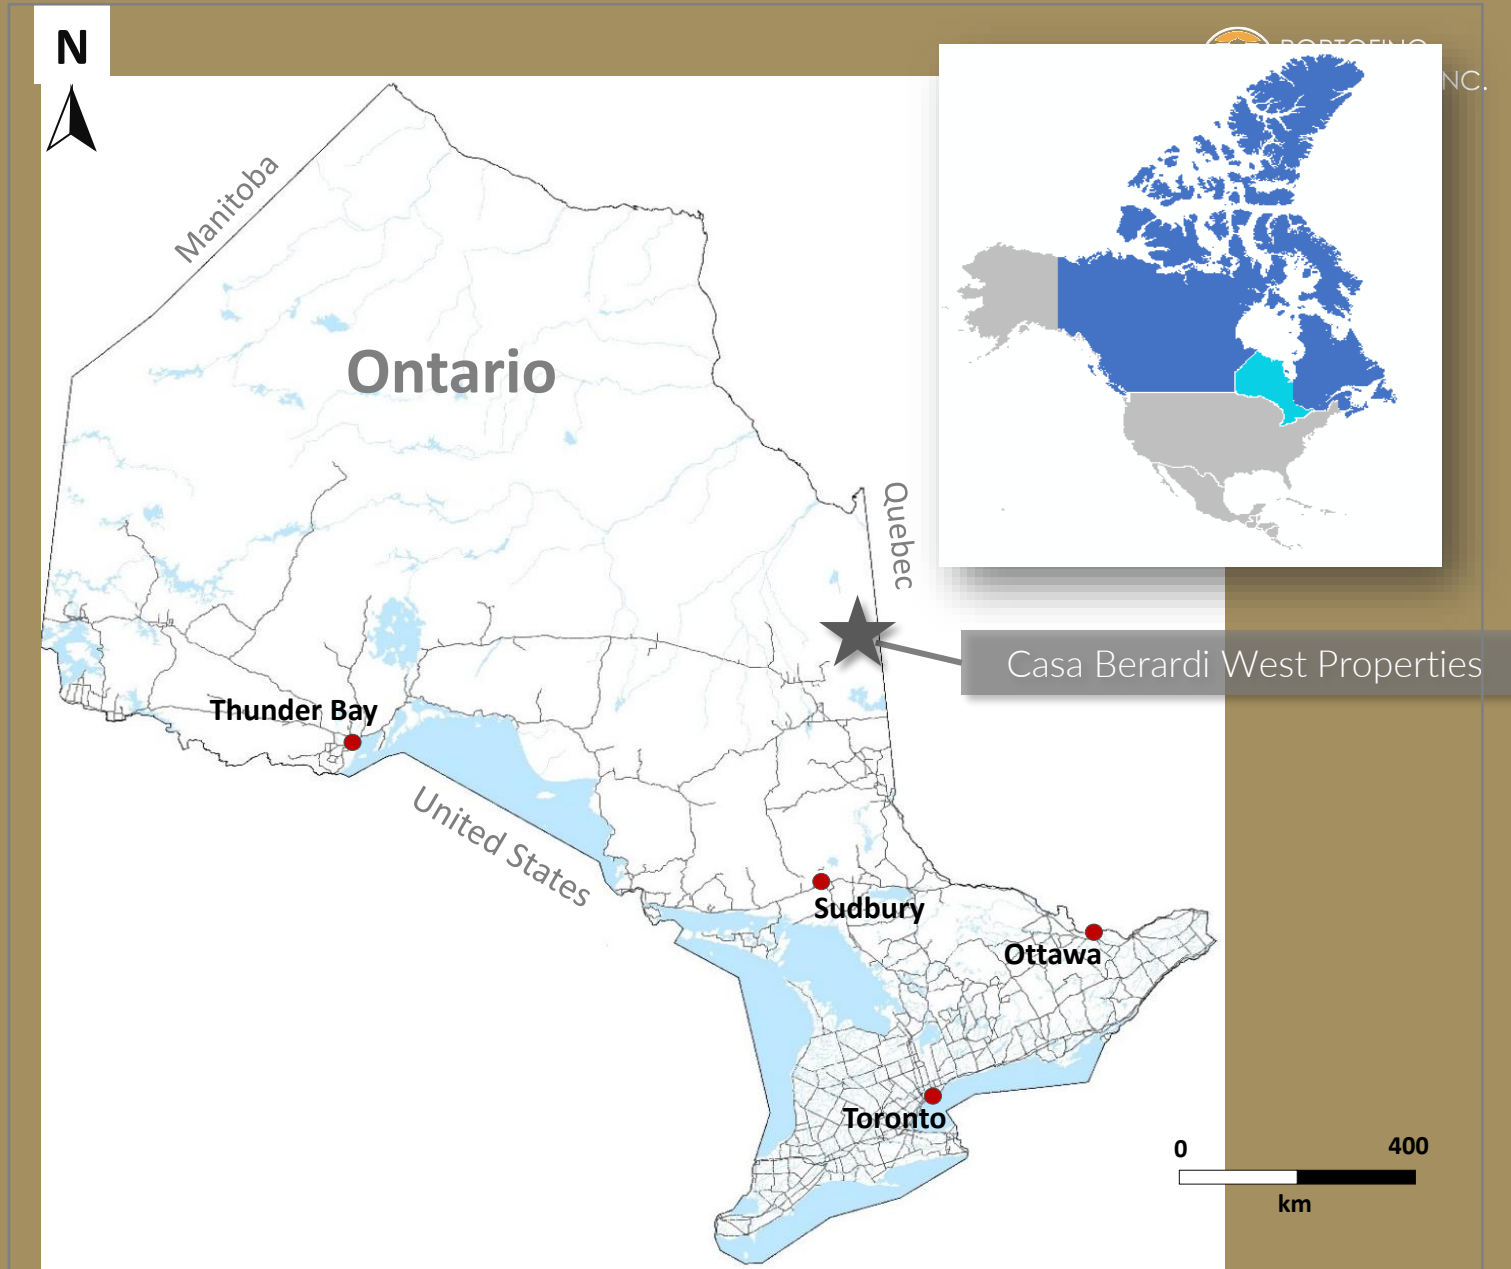

Aurileus Minerals Mikwam Property with 1.81 Mt @ 2.34 g/t Au for 136,000 oz

Casa Berardi West Location

Located 66 km. NE of Cochrane, Ontario

Situated along structural corridors hosting world class discoveries, operating mines, and significant past-producing operations

Main highway and ample logging roads permit year-round access to all areas of the claim group

Casa Berardi West

PROPERTY

The Casa Berardi West property comprises **3 claim groups** and covers approximately 6,732 hectares.

HISTORIC DRILLING RESULTS

Includes more than 70 RC and diamond drill holes returning encouraging results that include 18 samples greater than 1,000 ppb (1 g/t) Au and the highest returning 38,000 ppb (38g/t) Au

LOCATION

Strategically located northeast of Cochrane in the metal endowed central north Abitibi Subprovince.

The properties lie along structural corridors that host the Casa Berardi gold mine, the recent AMEX Exploration gold discovery, the Normetal Cu-Zn mine and south of the Agnico Eagle Detour Mine.

Numerous iron formations and shear zones proximal to a late granitic pluton has gold deposit analogies to the Musselwhite gold mine in Northern Ontario.

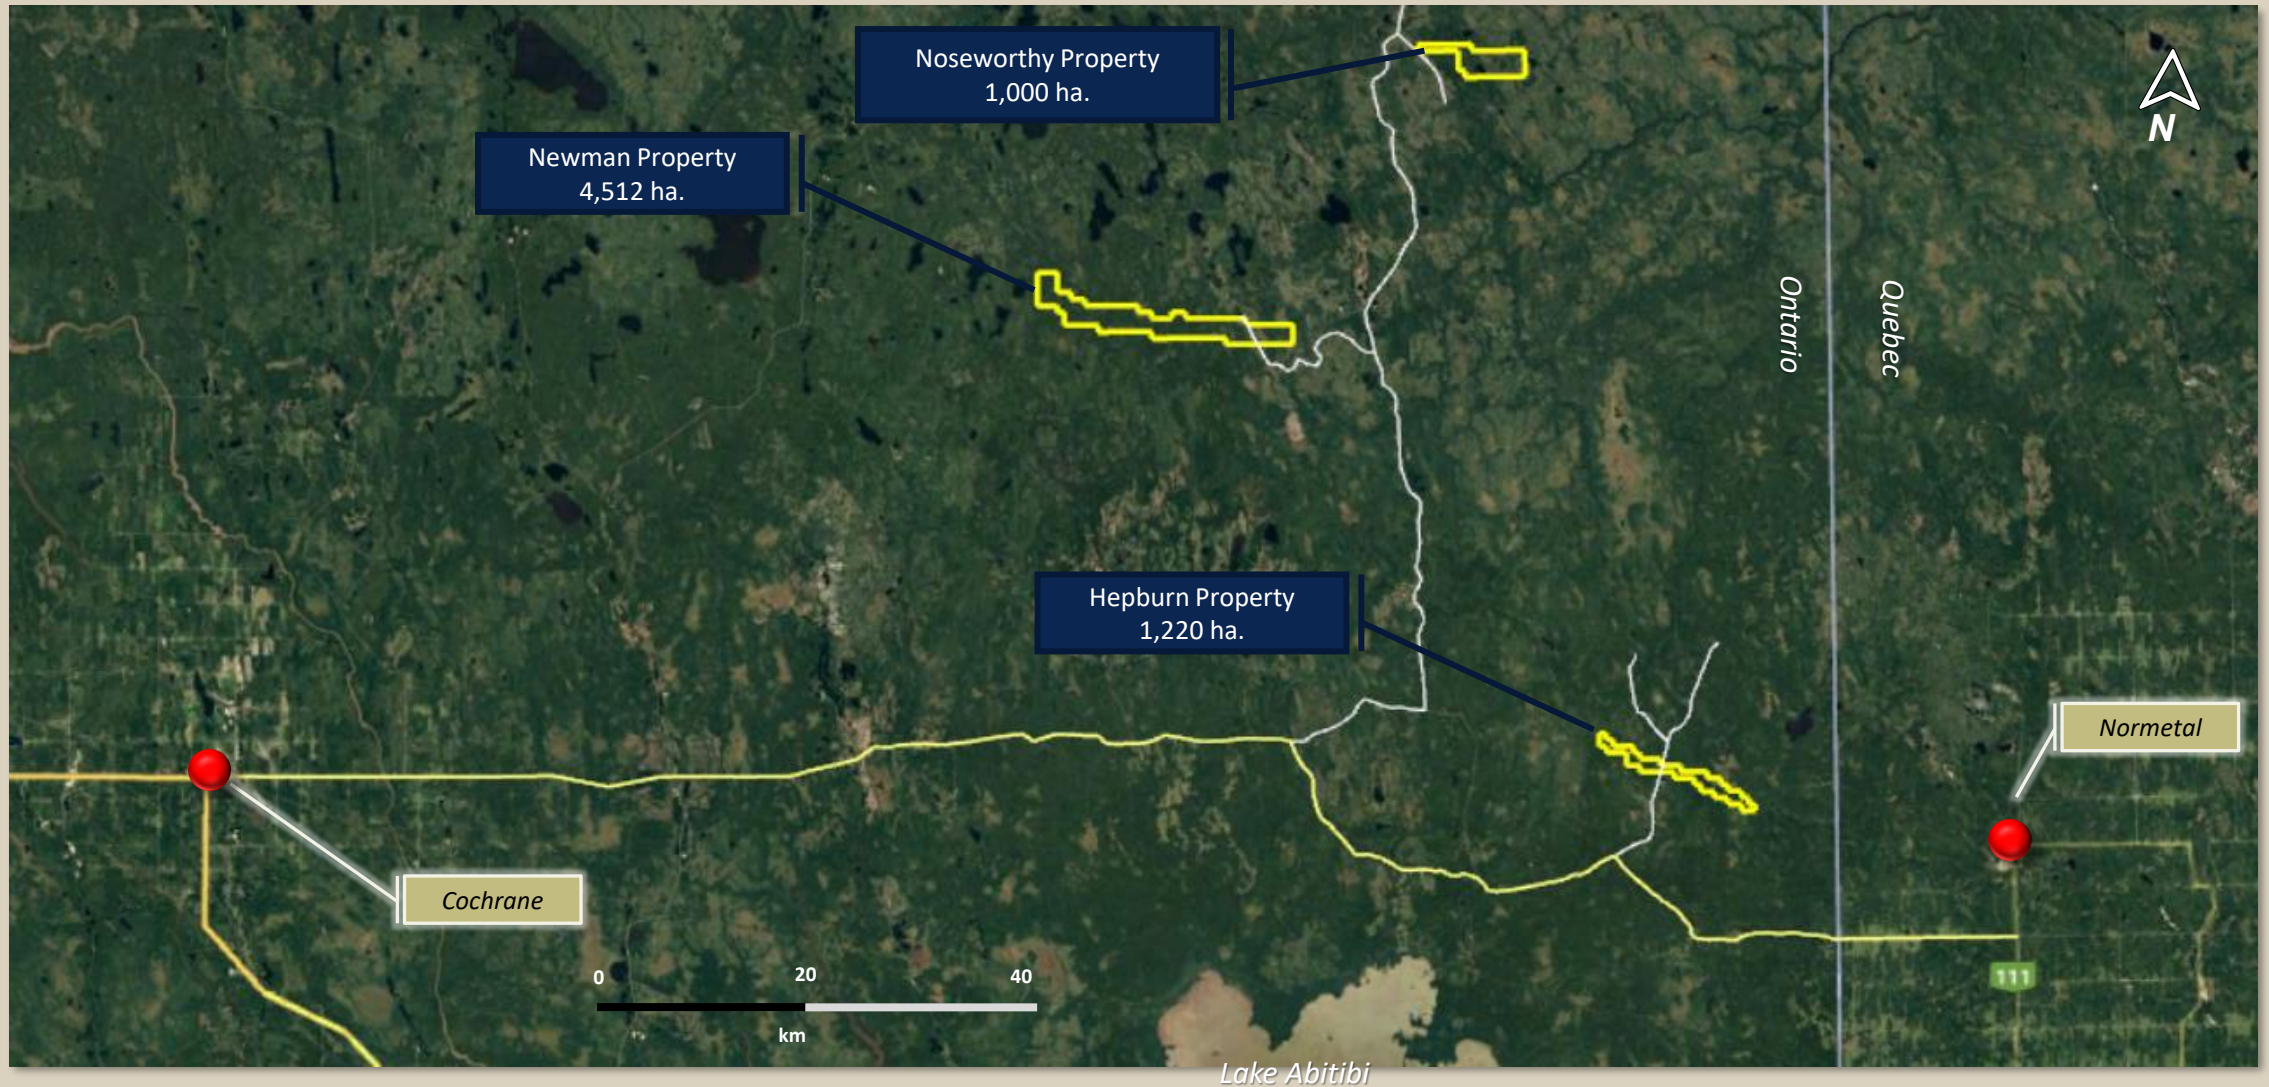

ACCESS

The property is **strategically located just east of Ontario Highway 652** and is serviced by active logging roads with nearby power and natural gas lines.

RECENT EXPLORATION NEARBY

In close proximity to very recent new gold discoveries. Historic exploration and significant drill hole information on and near the Project claims.

Casa Berardi West – 3 Claim Groups

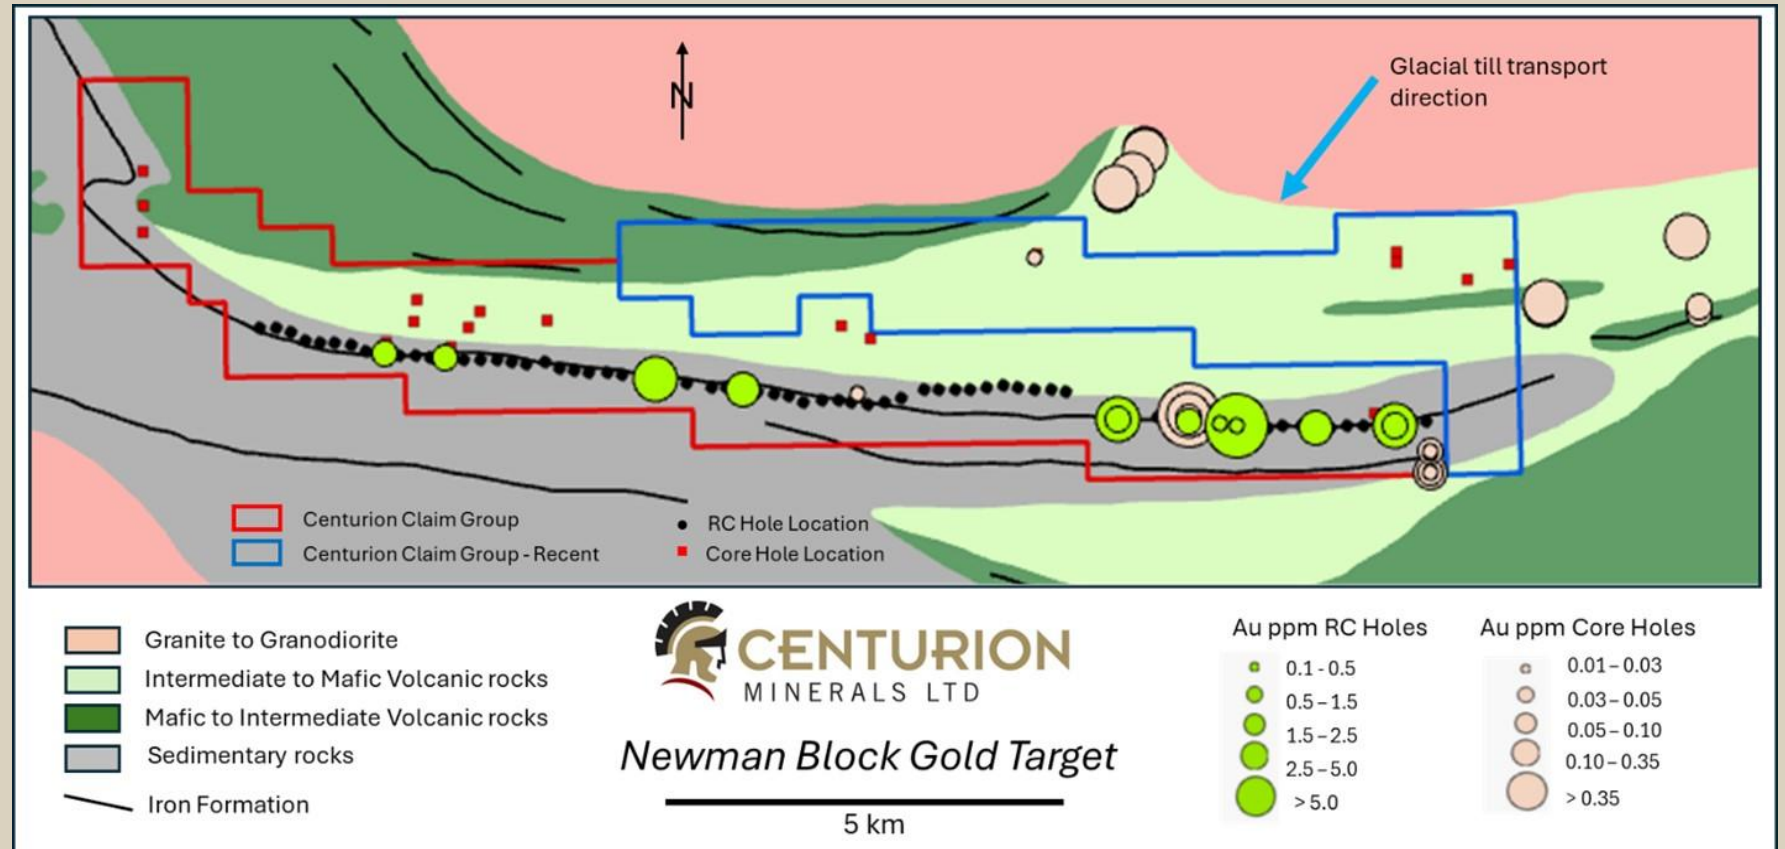

Newman Claims – 4,512 Hectares

Significant historic drill results

RC DRILL PROGRAM

Diamond drilling by Chesbar Resources targeted the north conductor (“A”) of the RC gold results, instead of targeting the horizon that possibly contained the gold. In drill hole 87-03 a result of 1.65 g/t Au over 0.91 m was obtained in a 15m wide kaolinite-chlorite schist. This value was immediately at the bedrock surface and the first sample, but never followed up on. Hole 87-12 intersected sulphidized iron formation providing evidence that iron formations are present.

Noseworthy Claims – 1,000 Hectares

Significant historic drill results around Noseworthy Claims

DIAMOND DRILL PROGRAM SURROUNDING CLAIMS

1990 diamond drilling by Cogema along the Spade Lake Shear Zone: 7.9 g/t Au over 4.5m, 2.75 g/t Au over 13.5m, 5.96 g/t Au over 1.5m and 0.41 g/t Au over 29.5m.

No drilling on the Noseworthy Property.

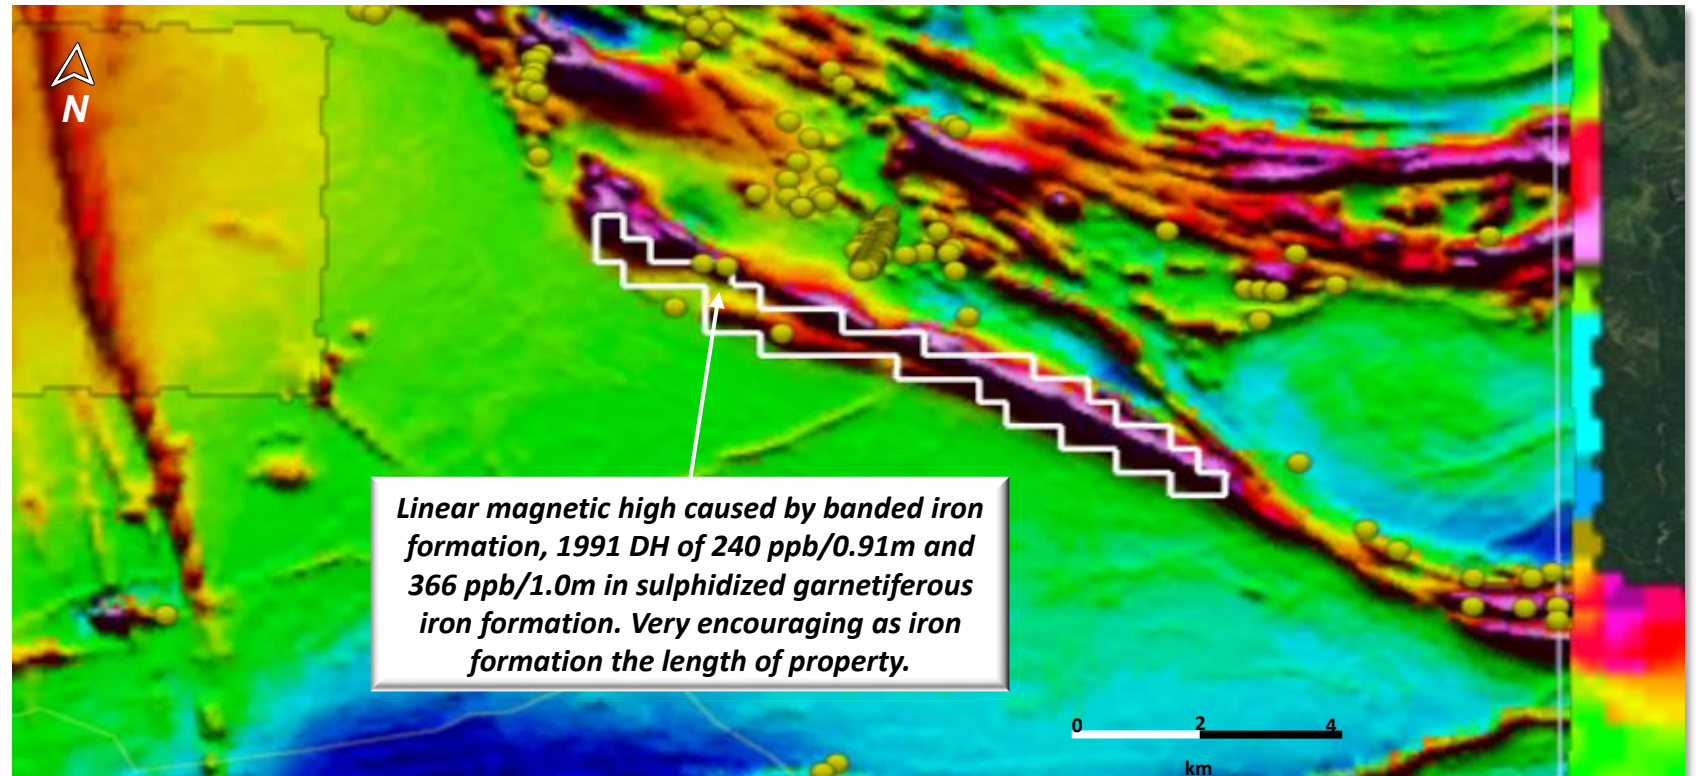

Hepburn Claims – 1,220 Hectares

Significant historic drill results

DIAMOND DRILL PROGRAM

Claim group lies along an extension of structures believed to be related to the former Normetal VMS mine (15 kilometers SE) and more recently to the high-grade gold discoveries at the Perron property located 12 kilometers to the east.

Minimal diamond drilling in 1990 and 1991 included intersections of 366 ppb Au over 1 m and 240 ppb Au over 0.91m in iron formation. Multiple targets identified along the length of the claims.

Recommended Exploration Strategy

HISTORIC COMPILATION

Compilation of all public geological, geophysical and drilling information for each Property.

HEPBURN CLAIM GROUP

High-resolution heliborne magnetic survey followed by structural interpretation integrating geology and mineralization.

NEWMAN CLAIM GROUP

Structural and geological interpretation from the Geotech heliborne magnetic and VTEM survey (2012) incorporating drilling, mineralization and geology.

DRILL TARGETING

Ground-truthing, sampling and mapping those areas of high merit.
Ground geophysics (IP) over most promising targets to generate drill targets.

NOSEWORTHY CLAIM GROUP

High resolution heliborne magnetic survey followed by structural and geological interpretation.

DRILLING

Initial diamond drill program covering identified drill targets.

Leadership Team

David Tafel | Director, President & CEO

Mr. Tafel holds a B.A. in Economics from the University of Western Ontario and contributes over 30 years of corporate structuring, strategic planning, financing and management experience to the Company. He has been an officer and director of a number of private and publicly listed resource companies. He has been instrumental in raising several hundred million dollars for resource, life sciences and technology companies. Mr. Tafel previously managed private investment funds at the largest independent Canadian securities firm.

Jeremy Wright, CPA, CMA | Director, CFO

Mr. Wright brings over 20 years' experience to the Company as President and CEO of Seatrend Strategy Group. Mr. Wright currently serves as the CFO for: Portofino Resources, Centurion Minerals, Westmount Minerals and Infinitum Energy; previously for Alpha Cognition, and Avant Brands (formerly GTEC Cannabis). He is a Director of Westmount Minerals, Centurion Minerals, and Infinitum Energy; previously for Pontus Protein, TGS Esports, Gold Mountain Mining (formerly Freeform Capital), Pacific Community Resources Society, and the Canadian Freestyle Ski Association. He is a CPA (CMA), has extensive negotiation training, and also holds a Bachelor of Arts, with honours in Environmental Economics from Brock University.

Joseph Del Campo | Director

Interim President & CEO of Unigold Inc. from February 2015 to October 2019. Interim Chief Financial Officer of Viper Gold Ltd. from August 2010 to November 2015. Mr. Del Campo was Chief Financial Officer of First Nickel Inc. from June 2005 to December 2011. He is a former Vice President, Finance and Chief Financial Officer of Unigold Inc. He serves as a director for a number of public companies including Unigold Inc., Terreno Resources Inc., and PJX Resources Inc.

Leadership Team

Mike Kilbourne, BSc., P.Geo | Geo Consultant

Mr. Kilbourne graduated from the University of Western Ontario in 1985 with an honours BSc. in Geology. His 1st field season was in 1980, representing 40+ years in the industry. Mr. Kilbourne's career has involved holding various executive positions for junior resource companies, gold production geologist for open pit, underground bulk and narrow vein mining, and long term mine planning for the 10+ simultaneous US aggregate operations. He has supervised and managed 100,000+ meters of diamond drilling in Archean precious and base metal projects. He recently surpassed generating 700+ exploration targets across North America and Mexico for a private firm.

Jamie Lavigne, P.Geo | Geo Consultant

Mr. Lavigne has 30+ years' experience in all phases of mineral exploration and development predominantly in base and precious metal deposits. He has held senior technical positions with major Canadian and Australian mining companies and has been involved in technical and management roles with several junior exploration companies. Mr. Lavigne is currently a consulting geologist specializing in advanced exploration and resource delineation and estimation. Mr. Lavigne has a B.Sc. (Geology) from Memorial University of Newfoundland and a M.Sc. (Geology) from the University of Ottawa. Mr. Lavigne is a member of l'Ordre des Géologues du Québec.
