## Forward-looking Statement

This presentation contains forward-looking statements concerning future operations of Centurion Minerals Ltd. (the “Company”). All forward-looking statements concerning the Company’s future plans and operations, including management’s assessment of the Company’s project expectations or beliefs may be subject to certain assumptions, risks and uncertainties beyond the Company’s control. Investors are cautioned that any such statements are not guarantees of future performance and that actual performance and exploration and financial results may differ materially from any estimates or projections. Such statements include, among others: possible variations in mineralization, grade or recovery rates; actual results of current exploration activities; actual results of reclamation activities; conclusions of future economic evaluations; changes in project parameters as plans continue to be refined; failure of equipment or processes to operate as anticipated; accidents and other risks of the mining industry; delays and other risks related to construction activities and operations; timing and receipt of regulatory approvals of operations; the ability of the Company and other relevant parties to satisfy regulatory requirements; the availability of financing for proposed transactions, programs and working capital requirements on reasonable terms; the ability of third party service providers to deliver services on reasonable terms and in a timely manner; market conditions and general business, economic, competitive, political and social conditions. It is important to note that the information provided in this presentation is preliminary in nature. There is no certainty that a potential mine will be realized.

Technical content has been reviewed and approved by Dr. Dennis LaPoint Ph.D., P.Geo., who is a Qualified Person as defined by National Instrument 43-101, Standards of Disclosure for Mineral Projects.

# Overview

Centurion Minerals Ltd. (TSXV: CTN) is led by a highly successful team of capital markets and geological experts. The Canadian-based company is focused on the acquisition, exploration, and development of precious mineral assets in the Americas, with particular emphasis on Suriname and the Guiana Shield gold belt.

With a clear strategic plan and its initial Suriname gold project acquired, the Company has a clear strategy focused on the discovery of world-class gold assets in a region dominated by other high-grade gold discoveries.

# Suriname

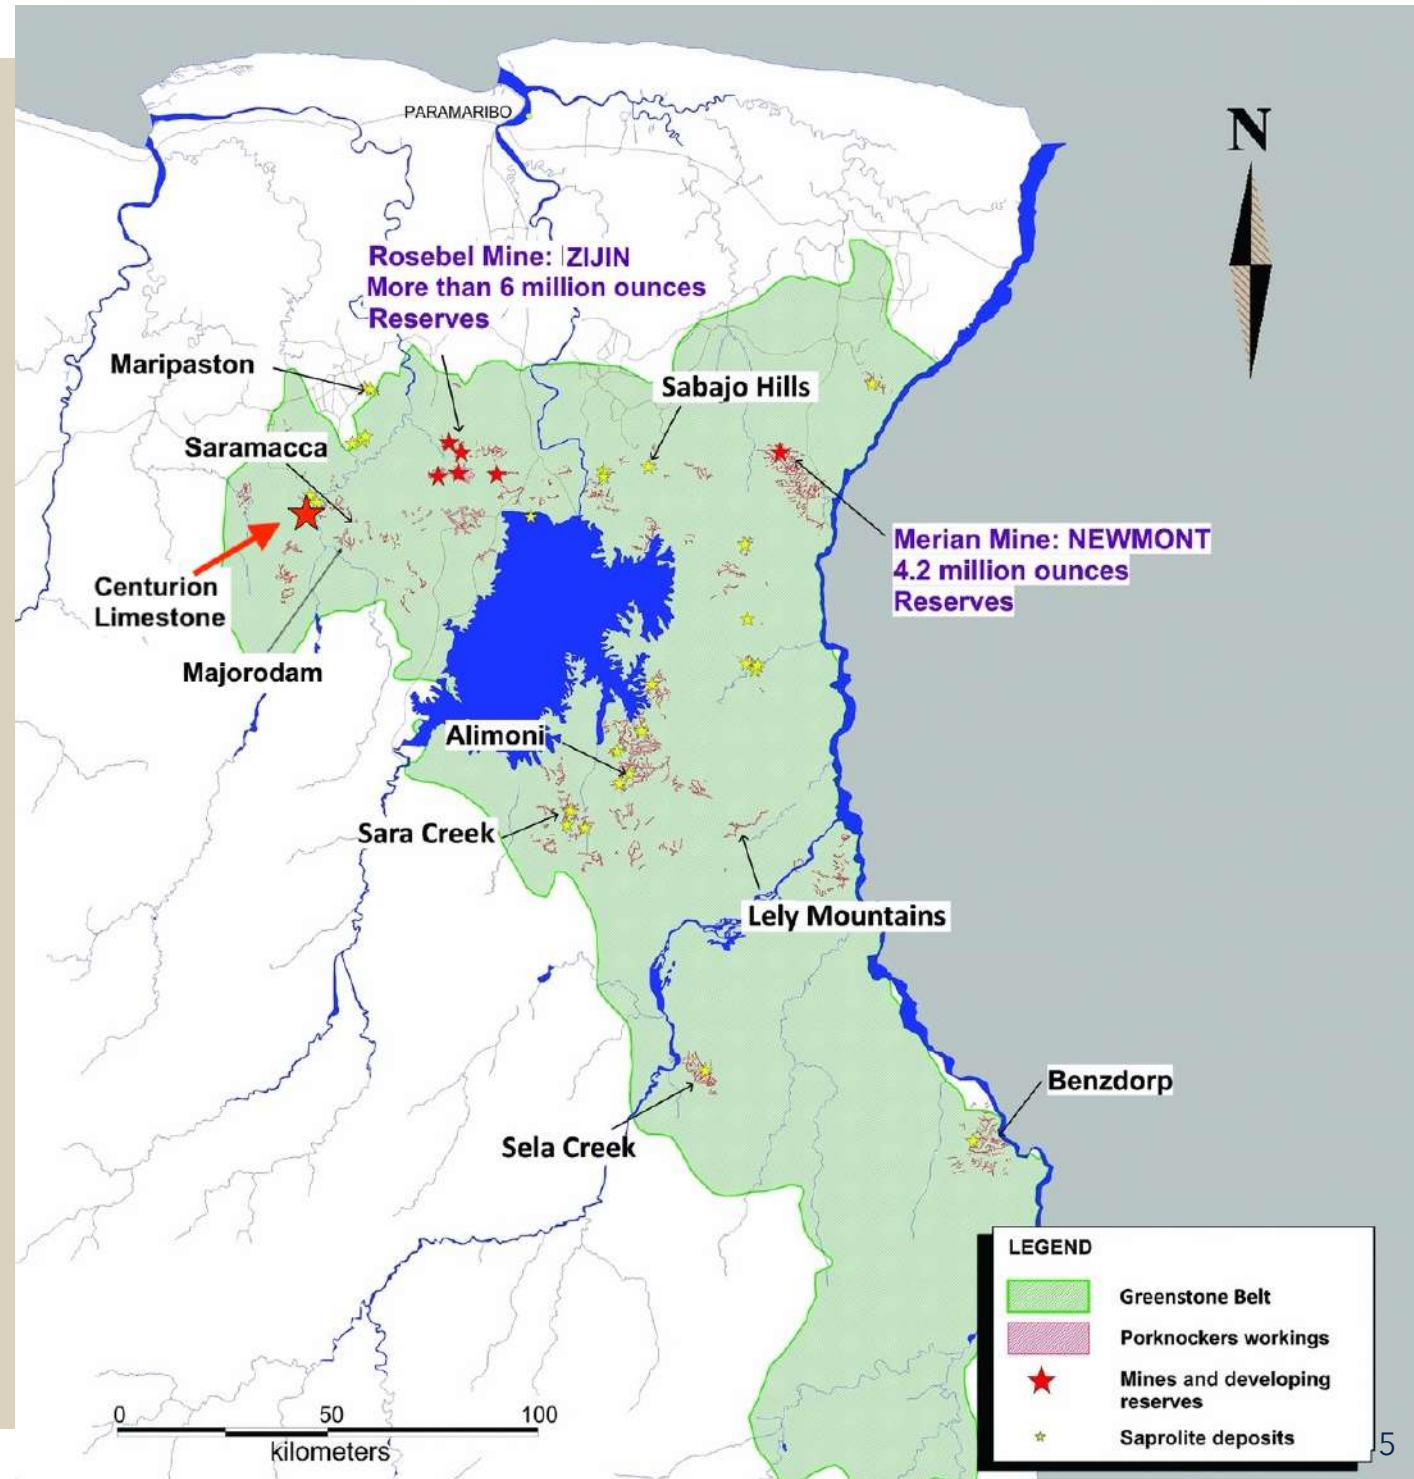

# Guiana Shield

## Precious Metals Focus

Gold mineralization in Suriname is primarily controlled by structural and lithological factors within the Paleoproterozoic **Marowijne Greenstone Belt** of the prolific gold producing **Guiana Shield**.

The deposits are predominantly classified as **orogenic gold systems** formed during the Trans-Amazonian orogeny.

# Limestone Gold Project

## PROPERTY

The 3,548-hectare Project is well situated for a gold discovery. Historic and active small-scale mining indicates the presence of gold within the Limestone concession.

## PRODUCTIVE MINING REGION

Limestone is situated in the largest and most productive region of both active and historic gold mining in Suriname. This region includes the Rosebel Gold mines currently operated by Zijin (Source: [Zijin, Rosebel Mine](#))

## PROXIMAL TO OPERATING MINES

Suriname has two tier one mines, Rosebel owned by Zijin and Merian owned by Newmont Corp. (“**Newmont**”), both located within the greenstone belt. Historically, the greenstone belt has been underexplored. In recent years the area has experienced a surge in mineral exploration activity from companies including Founders Metals Inc., Miata Metals Corp., Greenheart Gold Inc., and Sranan Gold Corp. Suriname has the potential to develop multiple new mines from concessions having similar gold potential to Limestone.

## ACCESS

The Project is less than 4 hours by road (or boat) from Paramaribo, Suriname’s capital city, with the Saramacca River crossing the concession area.

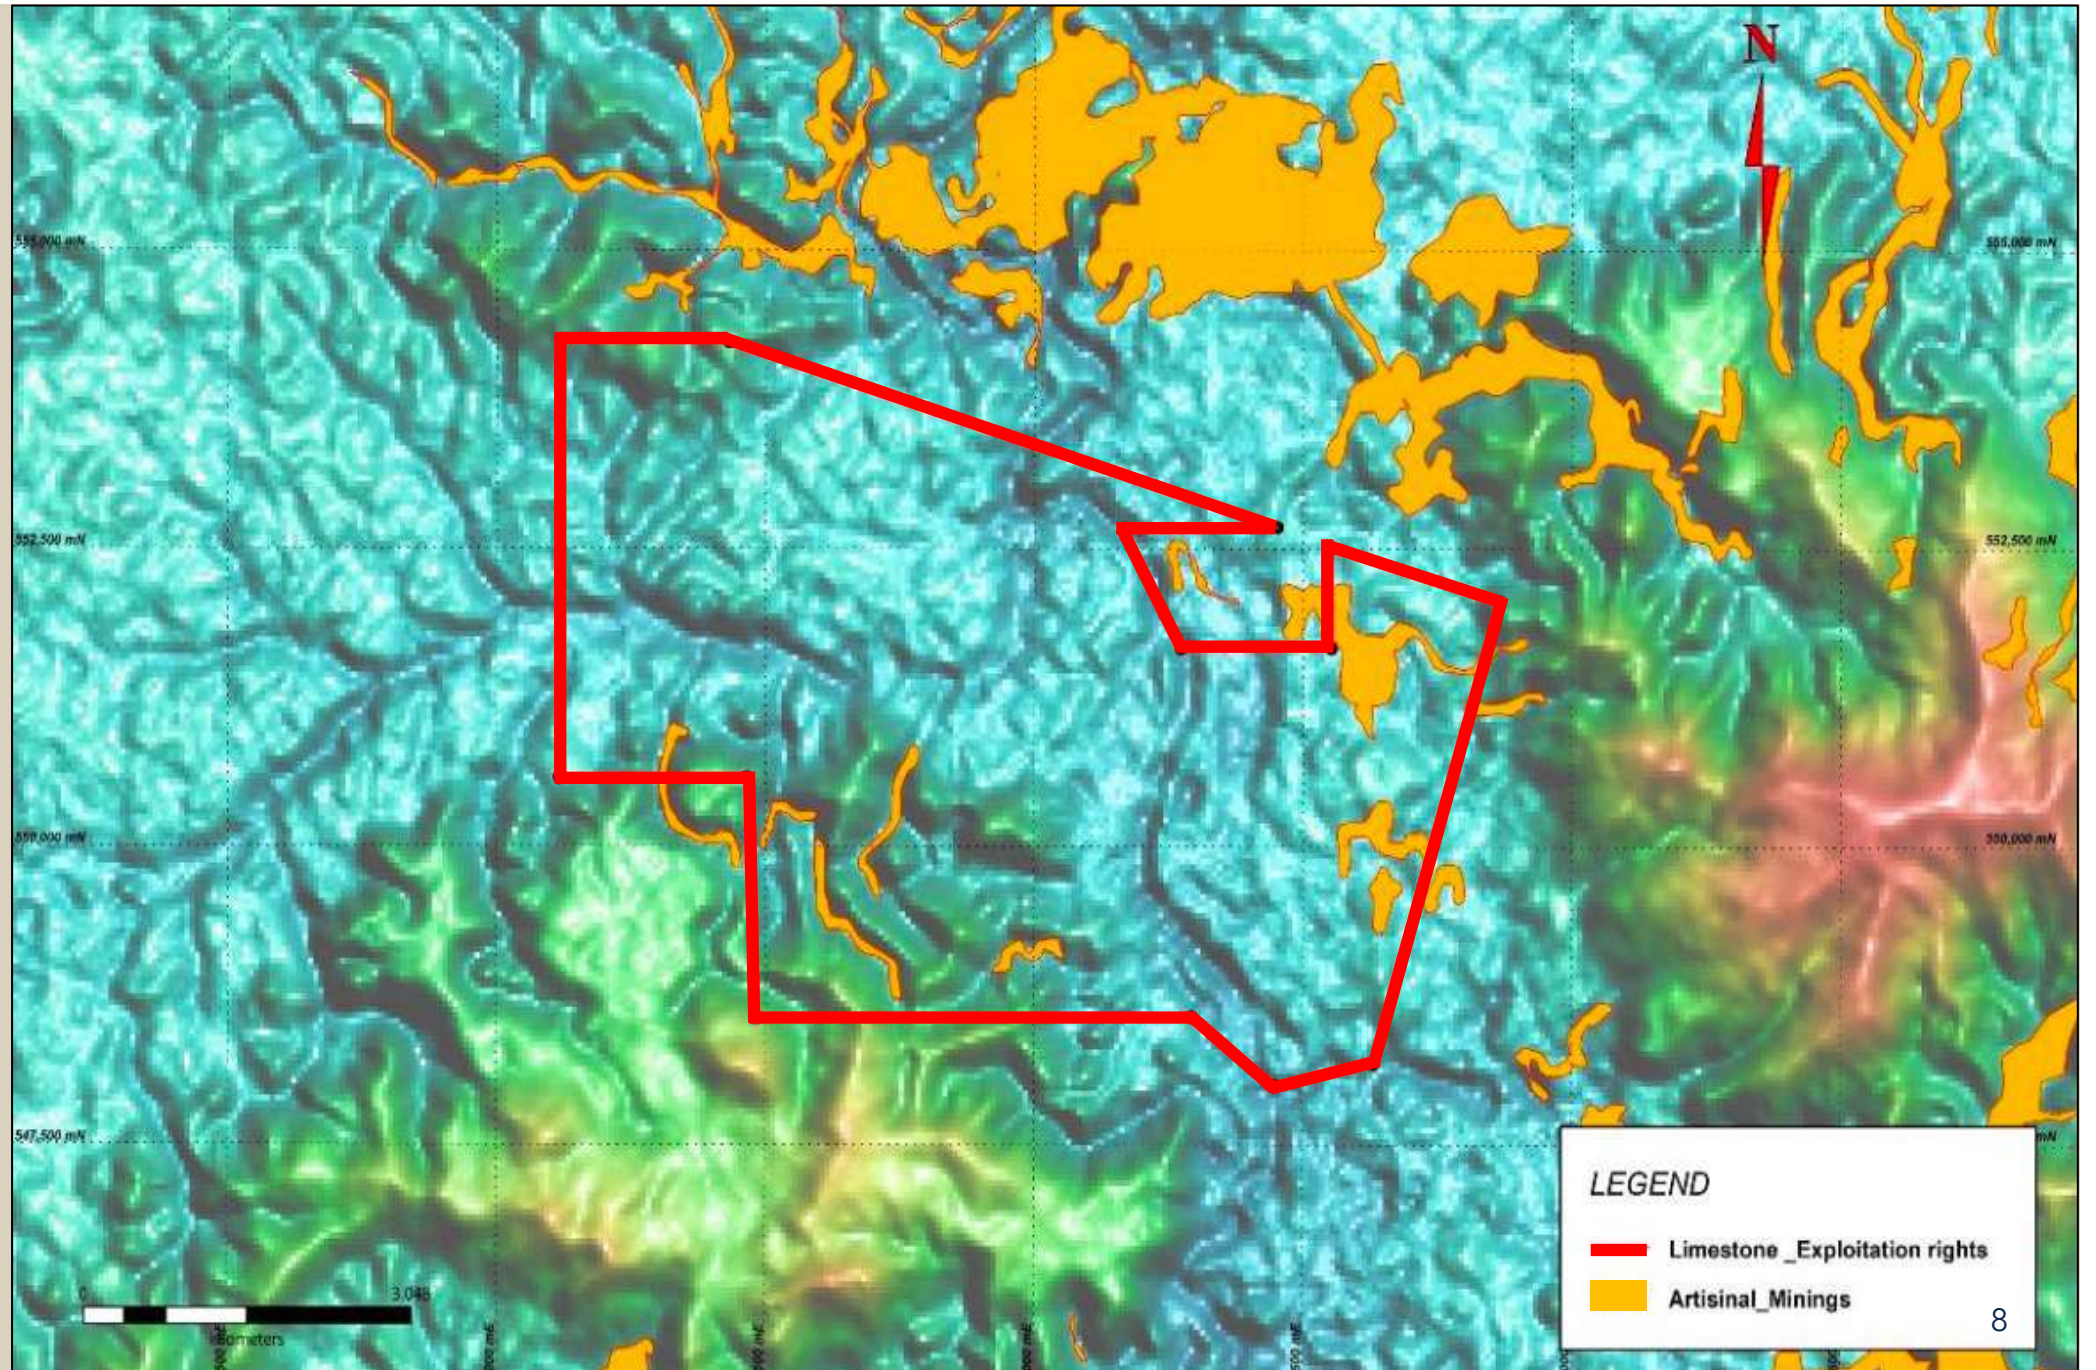

## RECENT EXPLORATION NEARBY

A number of international mining companies have been active in the region, exploring and drilling projects along the Saramacca and Rosebel Mine trends of Zijin. Limestone appears to be along the Saramacca mine trend.

# Corporate

# Leadership Team

**David Tafel | Director, CEO**

Mr. Tafel holds a B.A. in Economics from the University of Western Ontario and contributes over 30 years of corporate structuring, strategic planning, financing and management experience to the Company. He has been an officer and director of a number of private and publicly listed resource companies. He was a co-founder of MBMI Resources which discovered and developed a producing Philippine nickel mine, reaching a peak market cap of over \$450mm. He also founded Garson Gold Corp and led the \$12mil financing to buy the New Britannia, Manitoba gold mine, which later sold for over \$40mm. Mr. Tafel previously managed private investment funds at the (then) largest independent Canadian securities firm.

**Jeremy Wright, CPA, CMA | Director, CFO**

Mr. Wright brings over 20 years' experience to the Company as President and CEO of Seatrend Strategy Inc. Mr. Wright also serves as the CFO for: Portofino Resources, Westmount Minerals and Avant Brands; and previously for Alpha Cognition. He is a Director of Portofino Resources, Westmount Minerals, and Infinitum Energy; previously for Pontus Protein, TGS Esports, Gold Mountain Mining (formerly Freeform Capital), Pacific Community Resources Society, and the Canadian Freestyle Ski Association. He is a CPA (CMA), has extensive negotiation training, and also holds a Bachelor of Arts, with honours in Environmental Economics from Brock University.

**Joseph Del Campo | Director**

Interim President & CEO of Unigold Inc. from February 2015 to October 2019. Interim Chief Financial Officer of Viper Gold Ltd. from August 2010 to November 2015. Mr. Del Campo was Chief Financial Officer of First Nickel Inc. from June 2005 to December 2011. He is a former Vice President, Finance and Chief Financial Officer of Unigold Inc. He serves as a director for a number of public companies including Unigold Inc., Terreno Resources Inc., and PJX Resources Inc.

**Dennis J. LaPoint | Director, President**

Dr. LaPoint brings over 26 years of experience working in Suriname, where he led a geological team that was responsible for the discovery of the Merian Mine, now owned and operated by Newmont Corporation. Additionally, as Exploration Manager for Cambior/Iamgold, Dr. LaPoint played a significant role in expanding and identifying mineral resources beyond the boundaries of the Rosebel, Suriname mine concession (now owned by Zijin).
